HOW TO USE THE CALCULATOR

SIGN IN

Enter your email address and password.

In the future, each time you log in to use the calculator you will only have to enter these two items. Passwords can be reset at any time by contacting the Fund Office.

For single Plan Members, or a Plan Member who does not have Pension Partner at the time of retirement:

- Enter the expected hours worked every year
- Enter your anticipated retirement date
- Select option(s) 5, 10 or 15 Year Guarantee

For Plan Members with a Pension Partner:

- Enter your Pension Partner's date of birth
- Enter your expected hours worked every year
- Enter your anticipated retirement date

Spouse's Date of Birth:

Expected Hours worked every Year to Retirement:

Anticipated Retirement Date/Effective Date:

Select option: 5 Year Guarantee 10 Year Guarantee 15 Year Guarantee

The pension calculator will provide you with the dollar amounts for the option(s) elected, as well as confirm your age and Total Years Credit on the date of retirement. If you entered your Spouse's date of birth, the calculator will only calculate the Joint & 60% Survivor option.

IMPORTANT THINGS TO REMEMBER

In order to use the pension calculator, you must have hours reported in the previous year and have a Stakeholder number issued by the Fund Office.

Your Stakeholder number can be found on your annual Pension Statement, or you may contact the Fund Office to obtain your number.

Passwords can be reset at any time by contacting the Fund Office.

Plan Members who have recently joined the Pension Plan in the current year will need to wait until March the following year in order to use the calculator. This is because the yearly data refresh takes place in late February.

The pension calculator will calculate pensions for the ages of 55 to 65.
