If the amounts determined by the Actuary in accordance with an actuarial valuation conducted on the Pension Plan to provide for the Benefits accruing in that year and to fund any unfunded liability and any solvency deficiency in accordance with, and within the time limits specified in, the Applicable Pension Laws exceed the expected Contributions, the Trustees, upon approval of the Superintendent of Pensions, shall reduce the Benefits of Plan Members and/or Pensioners and/or Beneficiaries to the extent required to eliminate such excess.

Pension payments shall end with the payment for the calendar month in which the death of the Pensioner occurs except as noted in Article 6 and Article 8. Except for Pensioners and Beneficiaries living outside of Canada, monthly pension payments shall be made by direct deposit to the recipient's account at the financial institution designated by the recipient.

The Trustees may deduct fees associated with providing Benefit payments to a Pensioner, Pension Partner, or Beneficiary who refuses Benefit payments made in the standard manner described in the previous paragraph and as such, the Pension Plan is required to use an alternative method of payment or delivery.

5.2 Lump Sum Payment/Transfer

Lump sum payments and transfers payable under the Pension Plan shall be made within sixty (60) days after the later of the event giving rise to the lump sum payment or transfer and the Trustees having received all of the necessary completed and executed documents required to effect the payment or transfer. Such documentation shall include evidence of entitlement to the Benefit.

5.3 Incompetence or Incapacity of a Pensioner

In the event a Pensioner becomes incapacitated by mental or physical infirmity and thereby unable to care for his/her affairs, and notice of such incapacity is received by the Trustees, any payment due shall be paid to his/her legally appointed guardian, committee, or other legally appointed representative.

5.4 Duplication of Pensions

A Pensioner shall not be entitled to the payment of more than one type of pension provided under the Pension Plan at any one time except as a Beneficiary.

5.5 **Non-assignment of Benefits**

Except as permitted by Applicable Pension Laws, a Participant under the Pension Plan is hereby restrained from selling, transferring, anticipating, assigning, charging, hypothecating, giving as security, surrendering or otherwise disposing of his/her pension, prospective pension or any other right or interest under the Pension Plan, and the Trustees shall not recognize, or be required to recognize any such sale, transfer, anticipation, assignment, charge, hypothecation, surrender, transaction which gives the said entitlements as security or other disposition.

Any such pension, prospective pension, right or interest shall not be subject in any manner to voluntary transfer or transfer by operation of law or otherwise, and shall be exempt from the claims of creditors or other claimants and from all orders, decrees, garnishments, executions or other legal or equitable proceedings to the fullest extent permissible by law.

5.6 **Assignment of Benefits to Pension Partner on Relationship Breakdown**

- (a) Notwithstanding any provisions of the Pension Plan, a Participant may, in accordance with the Provincial Property Law, assign up to fifty percent (50%) of his/her Benefits to his/her Pension Partner pursuant to a Court order or judgment of a Court relating to a division of property, by filing a Court certified copy of the order or judgment with the Trustees. A subsequent pension partner of such Pension Partner, will not, however, be entitled to any Benefits under the Pension Plan with respect to the assigned portion of Benefits. Such assigned Benefits shall be locked-in to the extent required by Applicable Pension Laws and provided to the Pension Partner as follows:
 - (i) if the Plan Member has not attained age fifty-five (55) and has not retired, a lump sum transfer to the Pension Partner's Qualified Plan equal to the Commuted Value of the assigned pension computed in accordance with the basis outlined in Article 3.8 and assuming the Plan Member had suffered a Break in Service;
 - (ii) if the Plan Member has attained age fifty-five (55) and has not yet retired, the Pension Partner may elect either a transfer pursuant to Article 5.6(a)(i) or to delay the division of pension until the earlier of the date the Plan Member commences receiving his/her pension, has a Break in Service, or dies, at such time, the Pension Partner will receive a lump sum transfer pursuant to Article 5.6(a)(i);

- (iii) if the Pensioner is in receipt of his/her pension, unless precluded by a Court order or judgment of a Court, the monthly pension payments will be divided and the assigned pension will be adjusted on the basis of lifetime actuarial equivalence to a monthly pension payable for the Pension Partner's lifetime. If the Pensioner elected a joint and survivor Benefit in accordance with Article 8.1(b) or Article 8.2(d) and the Pension Partner was the Pension Partner of record on his/her Retirement Date, the remaining pension payable to the Pensioner will be adjusted on the basis of lifetime actuarial equivalence to a monthly pension payable for the Pensioner's lifetime only.
- (b) A Plan Member, Pensioner, or Pension Partner shall pay to the Pension Fund the fees associated with the services, information or documents provided with respect to a pension division on relationship breakdown. The fee charges shall be established by the Trustees subject to maximums prescribed by Applicable Pension Laws.
- (c) The Pension Partner may elect to receive a lump sum payment, less any withholding taxes, or a lump sum transfer to a RRSP equal to the Commuted Value of the assigned pension pursuant to Article 5.6(a)(i) or Article 5.6(a)(ii), if either:
 - (i) the Commuted Value of the assigned Normal Pension is less than twenty percent (20%) of the YMPE for the calendar year of the date of determination (or such other amount as may be established by Applicable Pension Laws); or
 - (ii) the Pension Partner has become a non-resident of Canada as determined under the *Income Tax Act (Canada)*.

5.7 Trust Assets

Neither the Employers, any Plan Member, Pensioner or Beneficiary nor any other person shall have any right, title or interest in or to the Pension Fund other than as specifically provided in the Trust Agreement or in the Pension Plan. Neither the Pension Fund nor any Contributions shall be in any manner liable for or subject to the debts, contracts, or liabilities of any Employer, or any Plan Member, Pensioner, Beneficiary or any other person.

5.8 Investment of Trust Assets

The investment of the Pension Fund monies shall be restricted to the securities and loans of the type and amount prescribed by Applicable Pension Laws.

ARTICLE 6

PRE-RETIREMENT DEATH BENEFITS

6.1 Designation of Beneficiary

A Plan Member may designate a Beneficiary or Beneficiaries to receive any payments due and payable as a result of his/her death prior to retirement by forwarding such designation on a form acceptable to the Trustees to the Pension Fund Office. A Plan Member shall have the right to change his/her designation of Beneficiary without the consent of the Beneficiary, but no such change shall be effective or binding on the Trustees unless it is received by the Trustees prior to the time any payments are made to the Beneficiary whose designation is on file with the Pension Fund Office.

6.2 Pre-Retirement Death Benefit

In the event of the death of a Plan Member prior to his/her Retirement Date, the Commuted Value of the Plan Member's Normal Pension at his/her death shall be payable in accordance with the following:

- (a) if there is no Pension Partner at the time of the Plan Member's death or if the Pension Partner has waived the provisions of Article 6.2(b) by filing with the Trustees, prior to the time of death, the form prescribed by Applicable Pension Laws, a lump sum payment to the Beneficiary subject to any applicable withholding taxes;
- (b) if there is a Pension Partner at the time of the Plan Member's death who is eligible to receive the pre-retirement death benefit, a lump sum transfer to the Pension Partner's Qualified Plan;
- (c) if there is a Pension Partner at the time of the Plan Member's death who is eligible to receive the pre-retirement death benefit, but the Pension Partner dies prior to completion of a transfer pursuant to Article 6.2(b), a lump sum transfer to the Pension Partner's estate; and
- (d) where the death occurs after the Plan Member has attained his/her Normal Retirement Date, his/her Normal Pension and Commuted Value shall reflect the additional pension payable pursuant to Article 3.2(b).

ARTICLE 7

APPLICATION FOR PENSIONS

7.1 Advance Written Application Required

An application for a pension shall be made in writing on a form and in the manner prescribed by the Trustees, and shall be filed with the Trustees at least one (1) month in advance of the first month for which Benefits shall become payable.

However, after a Plan Member's Maximum Postponed Retirement Date, no advance application is required.

7.2 Information Required

Each Plan Member, Traveler, Pensioner, or other claimant shall furnish to the Trustees any information or proof requested by them and reasonably required to administer the Pension Plan. Failure on the part of any Plan Member, Traveler, Pensioner, or other claimant to comply with such request promptly, completely and in good faith shall be sufficient grounds to delay the payments to such person.

If any Plan Member, Traveler, Pensioner, or other claimant to Benefits hereunder makes a false statement material to his/her claim for Benefits, the Trustees shall recoup, offset or recover the amount of any payments made in reliance on such a false statement in excess of the amount to which such Plan Member, Traveler, Pensioner or other claimant was rightfully entitled under the provisions of the Pension Plan.

7.3 Errors and Omissions

If the Trustees or any of their employees, delegates or consultants have inadvertently made any errors or omissions that resulted in payments higher than provided for by the Pension Plan, the Trustees shall have the right to recover from the recipients and shall endeavour to recoup, offset or recover any such overpayments.

ARTICLE 8

NORMAL & OPTIONAL PENSION FORMS

8.1 Normal Form of Pension

Unless a Plan Member elects an optional form of pension as provided in Articles 8.2, 8.3, and 8.4, the normal form of pension shall be either:

- (a) if the Plan Member does not have a Pension Partner on his/her Retirement Date, or does have a Pension Partner who has waived the prescribed normal form in accordance with Article 8.1(b), monthly payments commencing on the Plan Member's Retirement Date and continuing thereafter during his/her lifetime or until sixty (60) payments have been made if that period is longer. In the event the Pensioner dies prior to receiving sixty (60) monthly pension payments, the Beneficiary shall receive the remainder of the monthly pension payments, or may elect the Commuted Value of such remaining pension payments payable as a lump sum, less withholding taxes or as a lump sum transfer to the Pension Partner's Qualified Plan, if the Beneficiary is the Pension Partner. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.1(a) shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death; or
- (b) if the Plan Member has a Pension Partner on his/her Retirement Date, reduced monthly payments which are actuarially equivalent of the pension payable under the normal form of pension as described in Article 8.1(a) commencing on the Plan Member's Retirement Date and continuing thereafter during his/her lifetime with the provision that following his/her death, a pension equal to sixty percent (60%) of his/her reduced pension shall be paid to the Pension Partner of record on his/her Retirement Date, if the Pension Partner is then living, and continuing thereafter during the Pension Partner's lifetime. The actuarially equivalent adjustment in Benefit amount shall be determined by the Trustees on the basis of the advice of the Actuary, and taking account of the age of the Plan Member and his/her Pension Partner when payment of this Benefit is to commence.

The provisions of this Article 8.1(b) may be waived by the Pension Partner if the Trustees receive in writing the waiver form prescribed by Applicable Pension Laws within ninety (90) days prior to the first pension payment being made.

Once the pension Benefit becomes payable, the monthly amount can only change as noted in Article 5.6(a) upon the assignment of Benefits to a Pension Partner on relationship breakdown pursuant to a Court order or judgment of a Court and cannot be changed for any other reason, including separation or divorce from a Pension Partner, the acquisition of a new Pension Partner after retirement or divorce, or the death of a Pension Partner prior to the Pensioner's death.

8.2 Level Income Option

Where a Plan Member's Retirement Date is prior to January 1, 2016, such Plan Member retiring on an Early Retirement Pension may elect to have his/her monthly pension amount increased until he attains age sixty-five (65), which is the age at which he/she is expected to receive the Old Age Security and the Canada Pension Plan payments. If the Plan Member makes such an election, he/she will receive a reduced monthly pension thereafter. The adjustment will be determined on the basis of lifetime actuarial equivalence in such a way as to provide a monthly pension amount before age sixty-five (65) as nearly equal as possible to his/her combined retirement income after that age (i.e., the Old Age Security plus the Canada Pension Plan payments and the monthly pension from the Pension Plan).

Payment of the Level Income Option shall be subject to the following conditions:

- (a) The Plan Member must have elected the Level Income Option in writing on a form prescribed by and filed with the Trustees, before the first pension payment is made to him/her.
- (b) The Level Income Option may not be revoked once the pension payment in the optional form has commenced.
- (c) The monthly amount payable before age sixty-five (65) shall be adjusted on the basis of lifetime actuarial equivalence so that the monthly pension payable to the Pensioner on and after attainment of age sixty-five (65) shall not be less than the Minimum Pension and the Commuted Value of the monthly pension payable to the Pensioner on and after attainment of age sixty-five (65) shall not be less than twenty percent (20%) of the YMPE.
- (d) The Level Income Option shall be actuarially adjusted if a joint and survivor Benefit is payable in accordance with Applicable Pension Laws, so that the surviving Pension Partner's (60%) pension Benefit, if any, is not less than the Minimum Pension.

In the event the Pensioner dies prior to receiving sixty (60) monthly pension installments and if no surviving Pension Partner's pensions are payable following the death of the Pensioner who has elected the Level Income Option, payments shall continue in monthly installments to a Beneficiary equal to the amount the Pensioner would have been entitled until the sum of the number of monthly installments paid to both the Pensioner and his/her Beneficiary are equal to sixty (60). In lieu of receiving the remaining monthly installments, the Beneficiary may elect to receive a Commuted Value lump sum payment, less withholding taxes, or if the Beneficiary is the Pension Partner, a Commuted Value transfer to the Pension Partner's Qualified Plan. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.2 shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death.

8.3 Ten-Year Guarantee Option

- (a) A Plan Member without a Pension Partner, or with a Pension Partner who has waived the prescribed normal form in accordance with Article 8.1(b), may elect to receive a reduced lifetime pension with a ten-year guarantee, whereby the amount of the monthly pension will be reduced on the basis of actuarial equivalence but will continue after his/her death to his/her Beneficiary if he/she dies before receiving one hundred twenty (120) pension payments. Payments to the Beneficiary will continue until an aggregate of one hundred twenty (120) payments have been made to the Pensioner and his/her Beneficiary. In lieu of receiving the remaining monthly installments, the Beneficiary may elect to receive a Commuted Value lump sum payment, less withholding taxes, or if the Beneficiary is the Pension Partner, a Commuted Value transfer to the Pension Partner's Qualified Plan. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.3(a) shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death.
- (b) Election of the Ten-Year Guarantee Option must be made in writing in a form prescribed by the Trustees and filed with the Trustees prior to the date the first pension payment is made.
- (c) The Ten-Year Guarantee Option is not available if it would result in a monthly pension of less than the Minimum Pension.
- (d) The Ten-Year Guarantee Option, as outlined in this Article 8.3, may also be chosen in conjunction with the Level Income Option provided that the payment is actuarially adjusted and that the Plan Member's Retirement Date is prior to January 1, 2016. If such option is elected, in the event the Pensioner dies prior to receiving one hundred twenty (120) monthly pension installments, payments shall continue in monthly installments to a Beneficiary equal to the amount the Pensioner would have been entitled until the sum of the number of monthly installments paid to both the Pensioner and his/her Beneficiary are equal to one hundred twenty (120). In lieu of receiving the remaining monthly installments, the Beneficiary may elect to receive a Commuted Value lump sum payment, less withholding taxes, or if the Beneficiary is the Pension Partner, a Commuted Value transfer to the Pension Partner's Qualified Plan. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.3(d) shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death.

8.4 Fifteen-Year Guarantee Option

- (a) A Plan Member without a Pension Partner, or with a Pension Partner who has waived the prescribed normal form in accordance with Article 8.1(b), may elect to receive a reduced lifetime pension with a fifteen-year guarantee, whereby the amount of his/her monthly pension will be reduced on the basis of actuarial equivalence but will continue after his/her death to his/her Beneficiary if he/she dies before receiving one hundred eighty (180) pension payments. Payments to the Beneficiary will continue until an aggregate of one hundred eighty (180) payments have been made to the Pensioner and a Beneficiary. In lieu of receiving the remaining monthly installments, the Beneficiary may elect to receive a Commuted Value lump sum payment, less withholding taxes, or if the Beneficiary is the Pension Partner, a Commuted Value transfer to the Pension Partner's Qualified Plan. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.4(a) shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death.
- (b) Election of the Fifteen-Year Guarantee Option must be made in writing in a form prescribed by the Trustees and filed with the Trustees prior to the date the first pension payment is made.
- (c) The Fifteen-Year Guarantee Option is not available if it would result in a monthly pension of less than the Minimum Pension.
- (d) The Fifteen-Year Guarantee Option, as outlined in this Article 8.4, may also be chosen in conjunction with the Level Income Option provided that the payment is actuarially adjusted and that the Plan Member's Retirement Date is prior to January 1, 2016. If such option is elected, in the event the Pensioner dies prior to receiving one hundred eighty (180) monthly pension installments, payments shall continue in monthly installments to his/her Beneficiary equal to the amount the Pensioner would have been entitled until the sum of the number of monthly installments paid to both the Pensioner and his/her Beneficiary are equal to one hundred eighty (180). In lieu of receiving the remaining monthly installments, the Beneficiary may elect to receive a Commuted Value lump sum payment, less withholding taxes, or if the Beneficiary is the Pension Partner, a Commuted Value transfer to the Pension Partner's Qualified Plan. Further, if there is a Pension Partner at the time of death, any death Benefits pursuant to this Article 8.4(d) shall be payable to the Pension Partner unless the Pension Partner has waived this Benefit by filing the form prescribed by Applicable Pension Laws with the Trustees prior to the time of death.

ARTICLE 9

MISCELLANEOUS PROVISIONS

9.1 Limitation of Liability

The Benefits provided by the Pension Plan can be paid only to the extent that the Pension Plan has available adequate resources for those payments. In the event that at any time the Pension Fund does not have sufficient assets to permit continued Benefits under the Pension Plan, nothing contained in the Pension Plan and the Trust Agreement shall be construed as obligating any Employer to make Benefit payments or contributions in addition to those required by the Collective Agreement in order to provide for the Benefits under the Pension Plan. Likewise, there shall be no liability upon the Trustees, individually or collectively, or upon a Local Union to provide the Benefits established by the Pension Plan if the Pension Fund does not have assets to make such Benefit payments.

9.2 Addition of New Groups of Plan Members

The Trustees shall review the relevant actuarial data with respect to any group of prospective Plan Members added to the coverage of the Pension Plan after April 1, 1973. If the Trustees conclude that modifications are required by the inclusion of such prospective group, the appropriate provisions of the Pension Plan shall be modified with respect to the group involved so that the Pension Fund will not be adversely affected by the inclusion of such group for coverage hereunder.

9.3 Termination of Obligation to Contribute

- (a) The financing of Benefits provided by the Pension Plan is based on the continuance of Contributions as required by Collective Agreements or as agreed to by an Employer who contributes for those of his/her Employees who are not covered by a Collective Agreement and investment earnings.
- (b) If a Collective Agreement, or an agreement by an Employer to contribute for his/her Employees not covered by a Collective Agreement, is not renewed or is terminated for any reason other than:
 - (i) the closing of the Employer's business, or
 - (ii) the fact that the Employer no longer has any Plan Members employed in job classifications set forth in the terminated Collective Agreement or covered by the separate agreement, the Trustees shall take such action as is necessary with respect to the affected Plan Members, Pensioners, or Beneficiaries, provided such action does not conflict with any provisions of the Pension Plan or of Applicable Pension Laws.

9.4 **Restrictions on Employer Contribution Rates**

Notwithstanding anything contained herein to the contrary, negotiated contribution rates shall be established to reasonably expect that the aggregate of all Contributions made by Employers for hours worked in Covered Employment by their Employees will not exceed eighteen percent (18%) of all Employees' aggregate compensation from the Employers.

9.5 **Expenses**

The expenses incurred or compensation paid in the course of the administration of the Pension Plan shall be paid from the Pension Fund.

9.6 **Conflict with Registration Requirements**

Whenever any provision of this Pension Plan is in conflict with any mandatory condition for the maintenance of the registration of this Pension Plan under Applicable Pension Laws or with any mandatory administrative requirement established thereunder, such condition or requirement shall prevail over such provision.

ARTICLE 10

AMENDMENT AND TERMINATION

10.1 Amendment

The Trustees may amend or modify the Pension Plan at any time or from time to time in accordance with the Trust Agreement. In no event shall any amendment or modification of the Pension Plan cause or result in any portion of the Pension Fund to revert to, or be recovered by, any Employer, or a Local Union, or cause or result in the diversion of any portion of the Pension Fund to any purpose other than the exclusive provision to Plan Members, Pensioners, Travelers, or Beneficiaries under the Pension Plan and the payment of the administrative expenses of the Pension Fund.

10.2 Actuarial Reviews

The Benefits provided under the Pension Plan have been established on the basis of actuarial valuations which have established that the income and accruals of the Pension Fund will be fully sufficient. However, it is recognized as possible that in the future the income or the liabilities of the Pension Fund may be substantially different from those previously anticipated. It is understood that the Pension Plan can be fulfilled only to the extent that the Pension Fund has assets available from which to make payments. Consequently, the Trustees shall have prepared an actuarial valuation of the Pension Fund no less frequently than every three years and shall take the actuarial status of the Pension Fund into account in determining amendment or modification of the Pension Plan.

10.3 Termination of Pension Plan

- (a) If the Pension Plan is terminated, the assets of the Pension Fund, after providing for the expenses of the Pension Plan, shall be allocated to the extent that they shall be sufficient for the purpose of paying entitlements as provided for by the Pension Plan as follows:
 - (i) For Pensioners, the purchase of an annuity from an Insurance Company in the same form and amount that was payable from the Pension Fund as of the Plan Termination Date;
 - (ii) For Plan Members who have attained age fifty-five (55) and who have not submitted a written application prior to the Plan Termination Date to receive a monthly pension from the Pension Fund, either:
 - (A) the purchase of an annuity from an Insurance Company equal to the amount of lifetime pension determined in accordance with Articles 3.2 and 3.4 payable in the normal form of pension; or

- (B) a lump sum transfer of the Commuted Value of the pension outlined under Article 10.3(a)(ii)(A);
 - (iii) For Plan Members who have not attained age fifty-five (55), a lump sum transfer of the Commuted Value of their Normal Pension computed in accordance with Article 3.7(a)(i).
- (b) If there is any residual after provision for the Benefits payable under the Pension Plan as set out in Article 10.3(a), such residual shall be applied to provide uniform Benefit increases to all Pensioners and Plan Members on a pro-rata basis up to the amounts which can be provided by such remaining residual. Following application of the Benefit increases, the assets of the Pension Fund shall be allocated pursuant to Article 10.3(a).
- (c) If the assets of the Pension Fund are insufficient to provide for all Benefits, the assets of the Pension Fund shall be allocated as follows:
 - (i) Firstly, to provide for accrued Benefits in respect of which there is no unfunded liability at Plan Termination Date. Should the assets of the Pension Fund be insufficient to provide for accrued Benefits in respect of which there is no unfunded liability at Plan Termination Date, Benefit reductions shall be applied uniformly to all such accrued Benefits.
 - (ii) Secondly, if there are residual assets after provision of the accrued Benefits payable under Article 10.3(c)(i), such residual assets shall be allocated to provide for accrued Benefits on a pro-rata basis in respect of which unfunded liabilities have not been amortized as at the Plan Termination Date.
- (d) In no event shall any of the assets of the Pension Fund revert to or be recoverable by the Local Union or any Employer.

10.4 **Precedence**

Notwithstanding any provisions of the Pension Plan, the provisions of Applicable Pension Laws shall take precedence if they provide better conditions and entitlements for Plan Members, Pensioners, and Beneficiaries. The Trustees shall, in the first instance, be the interpreter of all provisions.

10.5 **Administration Rules**

The Trustees may from time to time establish rules for the administration of the Pension Plan. Except as otherwise herein expressly provided, the Trustees shall have the exclusive right to interpret the Pension Plan and to decide any matters arising thereunder in the administration and interpretation of the Pension Plan. Any interpretations or decisions so made shall be conclusive and binding on all persons having an interest in the Pension Plan. All interpretations and decisions shall be

applied as nearly as may be possible in a uniform manner to all Plan Members, Pensioners, Travelers, and Beneficiaries similarly situated.

10.6 **Latest Amendment Provisions**

This Pension Plan text as amended and restated as of February 1, 2020 applies to all Plan Members who incur a Termination of Membership on or after April 1, 2004. The Benefits of Plan Members who incurred a Termination of Membership or died prior to April 1, 2004 shall be determined in accordance with the terms of the Pension Plan in effect at the relevant date. The Benefits of Plan Members who were receiving disability Future Hours Credit on December 31, 2002 shall be determined in accordance with the terms of the Pension Plan in effect on December 31, 2002.
